

DNA Analysis Report

GENEXONE
DNA DIAGNOSTIC

Test: Bird DNA sexing – Assessment of CHD gene polymorphism

Method: Fluorescent PCR (f- PCR) and analysis for length variation of PCR product by electrophoresis.

Registration number: 111/11

Sample receiving date: 4.4.2011

Report date: 6.4.2011

Bird species: *Amazoňan žlutolící (Amazona autumnalis)*

Bird number: 0000

Indicated by: Josef Novák, Praha

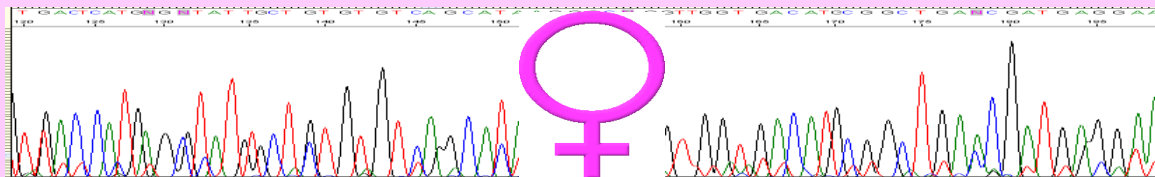

Sample DNA from: blood (krev)

Used probes: P2, P8 FAM

Result: CHD gene: ZW sequences

FEMALE

Findings reviewed and approved by: Doc. RNDr. R. Vrtěl, Ph.D.; Mgr.R.Vodička, Ph.D.
